

Oceancare, an innovative line of sealing and maintenance products for tile and natural stone. Developed by Oceanside Glasstile using cutting-edge chemical technology, Oceancare products are highly effective, easy to use and environmentally friendly.

PROTECT

HIGH PERFORMANCE PENETRATING SEALER

Hybrid Carrier Technology®

Through the discovery of a revolutionary water/solvent blending process, High Performance Penetrating Sealer offers the convenience and safety of a water-based formula combined with the ease of use and performance of a solvent-based formula. Hybrid Carrier Technology® is an evolutionary leap in sealer development.

Penetrates and protects grout, natural stone and other porous masonry materials. Forms an invisible, no-sheen barrier that is resistant to water and oil and provides superior stain protection. Low residue formula is specifically designed to be easier and faster to apply than traditional penetrating sealers. May be applied to dry, damp, cured or uncured grout or natural stone (seriously...immediately after grouting!).

HIGH PERFORMANCE ENHANCING SEALER

Hybrid Carrier Technology®

A low VOC, all-in-one color enhancer and penetrating sealer for both interior and exterior applications. Intensifies and enriches the color of natural stone, grout, concrete and other porous masonry materials. Forms a barrier that is resistant to water and oil and provides superior stain protection.

GLASS & TILE SHIELD

An invisible, non-toxic, easy to apply surface protectant that inhibits the bond of calcium and other mineral deposits. Protected surfaces are easier to maintain and most deposits are removed with light brushing or scrubbing. This eliminates the need for abrasive or acidic cleaners and keeps your surfaces looking new, longer. Use on a variety of hard surfaces including ceramic tile, porcelain tile, glass tile, natural stone, windows, shower doors, metal fixtures, mirrors, tubs and sinks. Excellent for pools, ponds and rock water features. Dried product is safe for aquariums and marine life.

MOST PEOPLE DON'T THINK ABOUT THE CHEMICALS UNDER THEIR KITCHEN SINK. HOWEVER, MANY COMMON HOUSEHOLD CLEANERS CONTAIN TOXIC COMPONENTS THAT POLLUTE OUR AIR AND WATER AS WELL AS POSE HEALTH RISKS TO OUR FAMILIES. AT OCEANCARE WE BELIEVE MAINTENANCE PRODUCTS SHOULD DO MORE THAN CLEAN OR PREVENT STAINS. THEY SHOULD PROVIDE YOUR FAMILY WITH A CLEAN, SAFE AND HEALTHY HOME WHILE PROTECTING OUR ENVIRONMENT.

WITH OUR LOW VOC SEALERS AND ALL NATURAL, NON-TOXIC, BIODEGRADABLE CLEANERS, OCEANCARE PRODUCTS COMBINE INDUSTRY-LEADING PERFORMANCE WITH THE ULTIMATE PEACE OF MIND.

MAINTAIN

**pH NEUTRAL
TILE & STONE CLEANER**

A non-toxic, biodegradable, all-purpose, no-rinse cleaner designed for daily use on almost any hard surface. Cleans glass, porcelain, ceramic and natural stone tile, grout, agglomerate & stone countertops, bathtubs, sinks and fixtures.

Also available in concentrate formula; when diluted with water, one quart of concentrate will make up to 96 gallons of cleaning solution.

**ALL PURPOSE
CLEANER & DEGREASER**

A 100% natural, plant-derived, citrus-based alkaline cleaner that quickly cuts through heavy grease and oil. This ultimate kitchen & bath cleaner cleans glass, porcelain, ceramic and natural stone tile, grout, agglomerate & stone countertops, cooktops, stainless steel, appliances, tubs, showers and metal fixtures. Soap-free formula also removes oil and stains from carpet, upholstery and fabric as well as grime from pool waterlines.

CLEAN & SEAL

An all-natural, biodegradable, powerful everyday cleaner, fortified with the sealing protection of OceanCare High Performance Penetrating Sealer. When used for regular cleaning, this product rejuvenates existing sealer and maintains stain protection at optimal levels. Designed for use with stone countertops, natural-stone, ceramic, porcelain, glass tile and grout.

RENEW

**GROUT
HAZE REMOVER**

A biodegradable, non-toxic, acid-free cleaner that removes cement-based grout haze and deep cleans heavily soiled cement-based grouts. Through the use of advanced acid-mimic technology, this product works like an acid-based cleaner but is safer for the user, environment and colored grouts. Use undiluted for heavy-duty cleaning or dilute with water and make over 2 gallons of cleaning solution. Designed for use with ceramic, porcelain, glass tile and cement-based grouts.

CALCIUM RELEASER

A non-toxic, acid free cleaner that removes calcium deposits and efflorescence from pool tile, shower doors and plumbing fixtures. Calcium deposits are removed through the use of advanced acid-mimic technology which targets mineral deposits without acid damage to glass, porcelain and ceramic tile surfaces or most metal finishes.

**INTENSIVE
STONE CLEANER
Concentrate**

A concentrated, acid-free, non-toxic, biodegradable, intensive cleaner designed for periodic use on natural stone surfaces. Cuts through years worth of heavy soil to restore natural stone surfaces to their original beauty. Use at maximum strength (1:4) for heavy-duty cleaning or make over 7 gallons of cleaning solution (1:30).

¹ Not recommended for exterior use in freeze-thaw climates.

NOTE: Irid = Iridescent, Non-Irid = Non-Iridescent

² Tiles with any edge longer than 5" are not recommended for shower floors or submerged applications, e.g. pools, spas and water features.

³ The following Devotion colors are **NOT** recommended for exterior applications: Gold, Silver Leaf, Water Mirror, Smoke Mirror, Lustre, Gilt, Heirloom, Nocturne, Astral and Helios. The following Devotion colors are **NOT** recommended for showers or steam showers: Gold, Silver Leaf, Water Mirror, Smoke Mirror.

⁴ In general, Oceanside Glasstile only recommends opaque tile in steam showers. However, in some instances, translucent tile may be used when installed with specific installation materials. For additional information, contact Oceanside Glasstile Technical Services at techsupport@glasstile.com or 877-648-8222.

FIREPLACES: All Oceanside Glasstile products are recommended for use on fireplace surrounds (wall tile) and/or hearth (floor tile) applications. Oceanside Glasstile products are **NOT** recommended for use inside fireboxes.

SALT WATER POOLS: All Oceanside Glasstile products recommended for use in pools (see chart above) are not adversely affected by exposure to salt water and are recommended for use in both fresh water and salt water pools.

SEALING NATURAL STONE: Avani, Harmonia, Geologie and Kinship all include natural stone components. To protect the natural stone, seal installations with either Oceancare High Performance Penetrating Sealer (natural look) or Oceancare High Performance Enhancing Sealer (color enriching) and maintain with an appropriate Oceancare cleaning product. For additional information, contact Oceancare Technical Services at techsupport@glasstile.com, 877-648-8222 or visit oceancareproducts.com.

LIGHT RESIDENTIAL: Residential flooring areas subject to soft-soled footwear or normal footwear traffic without heavy dirt. Some examples would be: interior rooms such as bathrooms and bedrooms without exterior access.
RESIDENTIAL: Residential flooring areas that are subject to soft-soled footwear or normal footwear traffic with small amounts of abrasive soil. Some examples would be: living or dining rooms.
HEAVY RESIDENTIAL: Residential flooring areas that are subject to normal footwear traffic with occasional amounts of abrasive soil. Some examples would be: halls, kitchens and corridors.
LIGHT COMMERCIAL: Non-industrial, commercial flooring areas that are subject to normal footwear traffic (less than 50 people per hour) with occasional amounts of abrasive soil. Some examples would be: boutique showrooms and corporate office spaces.

* Some limitations may apply. Please see DCOF AccuTest results and Manufacturer's Warning below.

DCOF AcuTest™ – Dynamic Coefficient of Friction			
A DCOF value of ≥ 0.42 is the new standard for tiles specified for floor applications in ANSI Standard A137.1-2012, Section 9.6. It replaces the ASTM C1028 static coefficient of friction (SCOF) value of ≥ 0.60 commonly specified for commercial floor applications. For more information about the DCOF AcuTest and the correlation between DCOF and SCOF, visit the Tile Council of North America's website: www.tcnatile.com .			
PIEL	DCOF Range	DECCA	DCOF Range
Sharkskin*	.35 - .38	Clay*	.39 - .44
Buckskin*	.38 - .44	Camel*	.37 - .40
OXIDO		Flint	.48 - .54
Carbon*	.31 - .36	Coal*	.40 - .43
Rust*	.31 - .38	Manufacturer's Warning * These tiles have a dynamic coefficient of friction less than 0.42 as measured by the DCOF AcuTest. Tiles with DCOF AcuTest values less than .42 are not recommended for use in areas with wet or slippery conditions. If such tiles are used as a walking surface where water, ice, oil, grease and/or other substances are present, such a condition could cause a reduction in foot traction and become unexpectedly slippery resulting in a fall and personal injury. See ANSI standard A137.1 section 6.2.2.1.10, available at www.tcnatile.com .

Our company philosophy has always been centered in sustainable processes and dedication to environmental health. Today, these same values reside in all our business practices and pervade the organization. We recycle over two million pounds of post consumer bottle glass each year in our manufacturing. Along with many other initiatives that continually improve our sustainability efforts, we implemented a co-processing partnership to almost completely eliminate any of our manufacturing waste from going to a landfill. As is evident in our product design and company values, we are committed to ongoing process advancements and environmental stewardship.

*Pre-consumer materials are generated during our manufacturing process and may consist of scrap and trimmings that were never used in the consumer market.

**Post-Industrial Material from manufacturing processes where virgin resources would otherwise go to waste. This material is collected and used in a product other than that for which it was originally used.

***Post-consumer material is an end product that has completed its life cycle as a consumer item and would otherwise have been disposed of as a solid waste. Oceanside Glasstile's post-consumer material is recycled bottle glass (cullet) from curbside recycling programs.
